WORK EXPERIENCE

CLEVER COUNSEL | San Francisco, CA
Software Engineer Intern | May 2021 – Jun 2021

- Implemented an optical character recognition tool (OCR) to automatically convert timesheet pdfs into formatted database entries.
- Wrote a bulk create method and corresponding unit tests to generate estimated paystub records based on user form data.
- Restructured parts of the codebase with React in order to create more component reusability.
- Refactored the front end UI and added back end validation to prevent users from submitting empty table records.

FUSEFX | New York, NY
Associate Producer | Sept 2019 – Jan 2021
Projects: The Politician, Black Lightning, The Blacklist, 911, 911 Lonestar, The Good Doctor, The Walking Dead, Pose, Outer Banks

- Set attainable goals, deadlines, and oversaw a team of artists in order to deliver an average of 100 shots per week under budget to clients.
- Briefed the production team and stakeholders on artist progress and status daily, ensuring no scheduling conflicts across projects.
- Updated project database consistently with accurate task statuses and information to increase artist and supervisor efficiency.
- Documented all supervisor and client feedback on shots and assets for reference and version control.

INDUSTRIAL LIGHT & MAGIC | San Francisco, CA
Other Positions: Senior Production Assistant, Production Assistant
Projects: Space Jam 2, Avengers Endgame, Captain Marvel, Black Panther, Jurassic World Fallen Kingdom

Production Coordinator | Aug 2017 – Aug 2019

- Spearheaded a team of 10 artists, monitoring their progress daily, as well as trained and delegated tasks to production assistants.
- Corresponded with clients and vendors in regards to the transfer of review material, assets, and all final deliverables.
